Summary

Software Engineer passionate about designing clean, scalable, and maintainable software. Experienced in applying software engineering best practices, including OOP, SOLID principles, design patterns, and modern architectures, to develop mobile applications, backend services, and gameplay systems using Kotlin, Java, Spring Boot, and Unity.

Education

- **9-Month Professional Diploma** Oct 2021 - Sept 2026
Mobile Applications Development (Native) track
Information Technology Institute (ITI) Smart Village branch
- **Bachelor of Computer Science, Ain Shams University** Oct 2021 – Jun 2025
Cumulative GPA: 3.42 (B+), with honors
Graduation Project: Late Plate- Grade: A

Work Experience

- **Game Developer, Mega Cat Studios** Jul 2025- Present
 - Developing gameplay systems and implementing features for Backyard Baseball in Unity/C#; optimizing performance and collaborating with designers and artists to ship polished, production-ready game builds.
- **Backend Engineer, Tactful** May 2025- Oct 2025
 - Built customer service automation workflows using Tactful's CX Studio and JavaScript; integrated Facebook, Instagram, and WhatsApp into a unified CX platform and collaborated with the Channels team to optimize backend communication pipelines.
- **Java Intern, Fawry** Dec 2024- Feb 2025
 - Built REST APIs and backend services using Java, Spring Boot, and relational databases.
 - Applied OOP, design patterns, and Agile practices in a production environment.
- **Mobile Developer Intern, DEPI** Jun 2024- Dec 2024
 - Built Android apps end-to-end focusing on UI, performance, and API integration; collaborated on real-world mobile solutions as part of an MCIT initiative.
- **Instructor, DEMI – iSchool** Jun 2024- Aug 2024
 - Taught CS fundamentals and guided students (ages 10–12) in building mobile apps using Code.org.

Skills

- **Android Development** Kotlin · Java · Jetpack Compose · Compose Multiplatform (KMP) · MVVM · MVP · Clean Architecture · Room · StateFlow · LiveData · Retrofit · Coroutines · Dagger/Hilt · Firebase · Supabase · RESTful APIs · RxJava
- **Backend Development** Java · Spring Boot · Spring MVC · Spring Security · JWT Authentication · Microservices · REST APIs · JPA · Hibernate · Relational Databases · NodeJS
- **Game Development** Unity · C# · Gameplay Programming · UI Systems. Performance Optimization

- **Programming Languages** Kotlin · Java · C# · C++ · C · JavaScript · Python · SQL
- **Software Development Concepts** OOP · Design Patterns & SOLID Principles · Algorithms & Data Structures
- **Databases & Tools** Room · Firebase · Supabase · Relational Databases · JPA & Hibernate · Git & GitHub · Postman

Projects

- **Qafilah** - Kotlin, Jetpack Compose, GraphQL, Agentic AI, Firebase [Repo Link](#)
AI-powered mobile commerce platform with MVI architecture and an autonomous assistant for smart product tracking.
- **Late Plate** – Kotlin, Python, Android [Organization Link](#)
AI-powered recipe recommendation app using NLP and deep learning.
- **Wassla** - Shared UI with Compose Multiplatform · Supabase Backend Freelance
KMP service marketplace app with shared Compose UI, Supabase backend, and Clean Architecture.
- **Event Management API** – Spring Boot [Repo Link](#)
Developed a secure Spring Boot REST API for event management with JWT authentication, role-based access, bookings, and search functionality.
- **Employee Management System** – Spring Boot, Angular [Organization Link](#)
Microservices HR platform with Spring Boot backend and Angular frontend.
- **Go Healthy** – Kotlin, Android [Repo Link](#)
Fitness and nutrition tracker using Firebase, device sensors, and external APIs.
- **FOS** – C [Repo Link](#)
C-based OS with custom memory management, page fault handling, and CPU scheduling.

Extra-Curricular Activities

- **Support ASU** — student activity supporting Ain Shams students; Committee Head, taught C++ and
 - Taught C++ fundamentals and game development using SFML; delivered multiple lectures and workshops.
 - Learned Unity and Blender basics; created educational content including an SFML banking system tutorial series ([playlist](#)) ([project](#)).
 - Served as Committee Head managed sessions, curated unity-focused material, and coordinate support events with faculty
 - Mentored new committee head and continued contributing to annual game development support activities

Awards and Honors

- **Top Achievers, DEPI** 2025
Ranked among top performers in the freelancing phase; honored by the Minister of Communications and IT.
- **1st Place, Mobile Development Track, DEPI** 2024
Ranked 1st among 20 top projects for a real-world mobile solution.
